

privacy. Achieve a sleek and modern atmosphere with their minimalist design.

# **Roller Shade**

Roller Shade is available in two different design options, standard exposed roll and cassette with matching fabric inserts. The innovative CSA-153<sup>™</sup> cassette system features unique solutions to provide for ease of installation.

- Cassette & Bottom Rail with Matching Fabric Insert.
- · Cordless operation.
- Clutch/Retractable wand operated shades.
- Motorized operation utilizes industry leading motors known for their quiet operation and ease of use.
- Standard Exposed Roll Configuration
- Square and Rounded (CSA-153<sup>™</sup>) Cassette options.
- Standard or Reverse Roll.

- 15.Level Controller Cap
- 16.Remote

# Minimum Size

Clutch operated with retractable wand 8" x 16"
Rechargeable Battery Motor 22 1/2" x 16"
Wand Operated Motor 22 1/2" x 16"
Hardwired DC Motor 15 5/8" x 16"
Cordless 21" x 16"

\*Please refer to Fabric Technical Data pg. CO-10 for further information regarding maximum shade sizing.

# Standard Cord Length

#### Shade Height Cord Length

8"
24"
36"
18"
60"
72"

\*Surcharge of \$8.00 will apply to any cord or metal chain measuring above 97" to 140".\*\*All continuous cords will be matched to the appropriate component color. Please refer to "Color Table and Fabric Technical Data" see pg. RO-07

### Available Design Options

- Cassette with standard matching fabric insert for both cassette and bottom rail.
- Standard Exposed Roll
- Standard or reverse roll

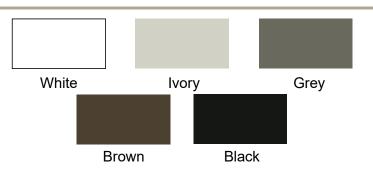

### Tube Size

Shade Size	Internal Dimension	Outside Dimension
Up to 78"	36mm	38mm
78 1/8" & above	38mm	40mm

### **Bracket Requirements**

Shade Size	# of Brackets
Up to 40" ·	2
40 1/8" - 70"	3
70 1/8" - 96" ·	4

# **Component Color Option**

### **Finished Dimensions**

	Inside Mount	Outside Mount	End Mount
	(IM)	(OM)	(EM)
All systems	-1/8"	-0"	-5/8"
Shade height	-1/8"	-0"	-1/8"
Fabric width	-1 3/16"	-1 3/16"	-1 9/16"

Minimum Casement Depth 2"	
Fully Recessed ·3 5/8	)"
Outside Mount	
Minimum Mounting Surface Height 1 3/4	."
End Mount	
Minimum Casement Depth 2"	

#### Standard Exposed Roll

Inside Mount
Minimum Casement Depth 2"
Fully Recessed 3 5/8"
Outside Mount
Minimum Mounting Surface Height 1 3/4"
End Mount
Minimum Casement Depth 2"

### **Retractable Wand Length**

16"-47 7/8" 24	1"
48"-71 7/8" 36	3"
72" and above48	3"

\*All retractable wands will be matched to the appropriate component color. Please refer to "Color Table" see page CO-08 to CO-09.

### Motorization Wand Length

16"-47 7/8" ·	24"
48"-71 7/8"	36"
72" and above	48"

\*Motorization wands are available in white only

# Child Safety Tension Device

In accordance with the revised American National Standard (ANSI WCMA A100.1- 2018) for Safety of Corded Window Covering Products, Combi Shade® requires proper mounting of the tension device on cords that exceed 40% of the shades height for the product to function safely and properly.

Tension devices should not be modified in any way.

# Light Gap (Cassette)

Light gap is measured from the edge of the window opening to the edge of fabric.

### Retractable Wand (Inside Mount)

Clutch Side	1/2"
End Plug Side	5/8"

### Cordless Wand (Inside Mount)

Clutch Side	1/2"

# Light Gap (Standard Exposure Roll)

Light gap is measured from the edge of the window opening to the edge of fabric.

Retractable Wand (Inside Mount)	
Clutch Side 1	/2"
End Plug Side 5	5/8"

### Cordless Wand (Inside Mount)

Clutch Side	 ·· ·	1/2"
End Plug Side ·-	 · {	5/8"

### Motorization (Inside Mount)

Clutch Side · 1/2	2"
End Plug Side 5/	8"

### Tile Cut

Upon request, the bottom bar assembly and fabric can be cut down to a specified size, different from the width of the cassette assembly.

#### Measuring and ordering "Tile Cut".

#### Step 1

Measure the uppermost position "A" of the window opening to determine the window opening size.

#### Step 2

Measure the inside width of the window opening at the lowermost position "B" to determine the bottom window opening size

#### Step 3

Please specify the determined width of the lowermost position under "tile cut" column.

### Measuring Corner Windows

There are a few different approaches to measuring for corner windows. Please consider the formed light gap in relation to viewing angle from both inside and outside and how this might affect privacy.

#### Options 1 & 2

#### Step 1

Measure the inside width of both window openings at the uppermost position to determine the widths of the cassette.

Step 2

Decide which of the two shades will be full or butt shade.

Step 3 Deduct 3  $\frac{5}{6}$ " from the determined width of the butt shade.

#### **Option 3**

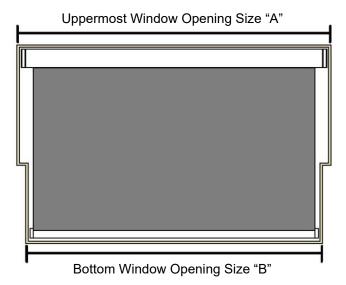

#### Step 1

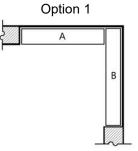

Measure the inside width of both window openings at the uppermost position to determine the widths of the cassette.

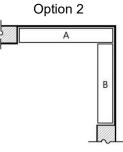

Step 2 Once both measurements are acquired, deduct 3 %" from both shades.

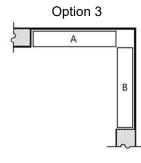

#### Important!

This option will greatly increase the amount of light gap formed along the corner.

Combi Shade®, Roller Shade, Triple Shade™

### Avant Motorized Controllers

Combi Shade® motorized shade systems offer consumers the option of integrating their motorized shades with a compatible smart home application through the use of Neo Link Box. This small and innovative device modernizes the way consumers can operate their shades, by providing access from a smart device. Simply download the free Neo app thru Google play or Apple App store. Once set up, consumer will have the ability to control one or various shades through their smart devices remotely. In addition, the Neo link box may be integrated for voice command through Amazon Alexa, Control4, Google Home, and Savant.
